Un'opera di assoluta avanguardia nautica, la perfetta combinazione di meraviglia e stupore e un concentrato vertiginoso di lusso e tecnologia. Avveniristico nei materiali e nella motorizzazione, Pershing 9X è un maxi coupé rivoluzionario che combina il brivido di Pershing e l'eccellenza della "X Generation" in un'esperienza nautica mai provata prima.

A work of true state-of-the-art nautical design, the perfect combination of wonder and amazement and an awe-inspiring blend of luxury and technology. With its futuristic materials and engines, the Pershing 9X is a revolutionary maxi coupé that merges the Pershing thrill with "X Generation" excellence to produce an unprecedented nautical experience.

Une création nautique à l'avant-garde, la combinaison parfaite entre émerveillement et concentré vertigineux de luxe et de technologie. Futuriste de par ses matériaux et sa motorisation, le Pershing 9X est un grand coupé révolutionnaire associant les sensations de Pershing et l'excellence de la « Génération X » au sein d'une expérience nautique inédite.

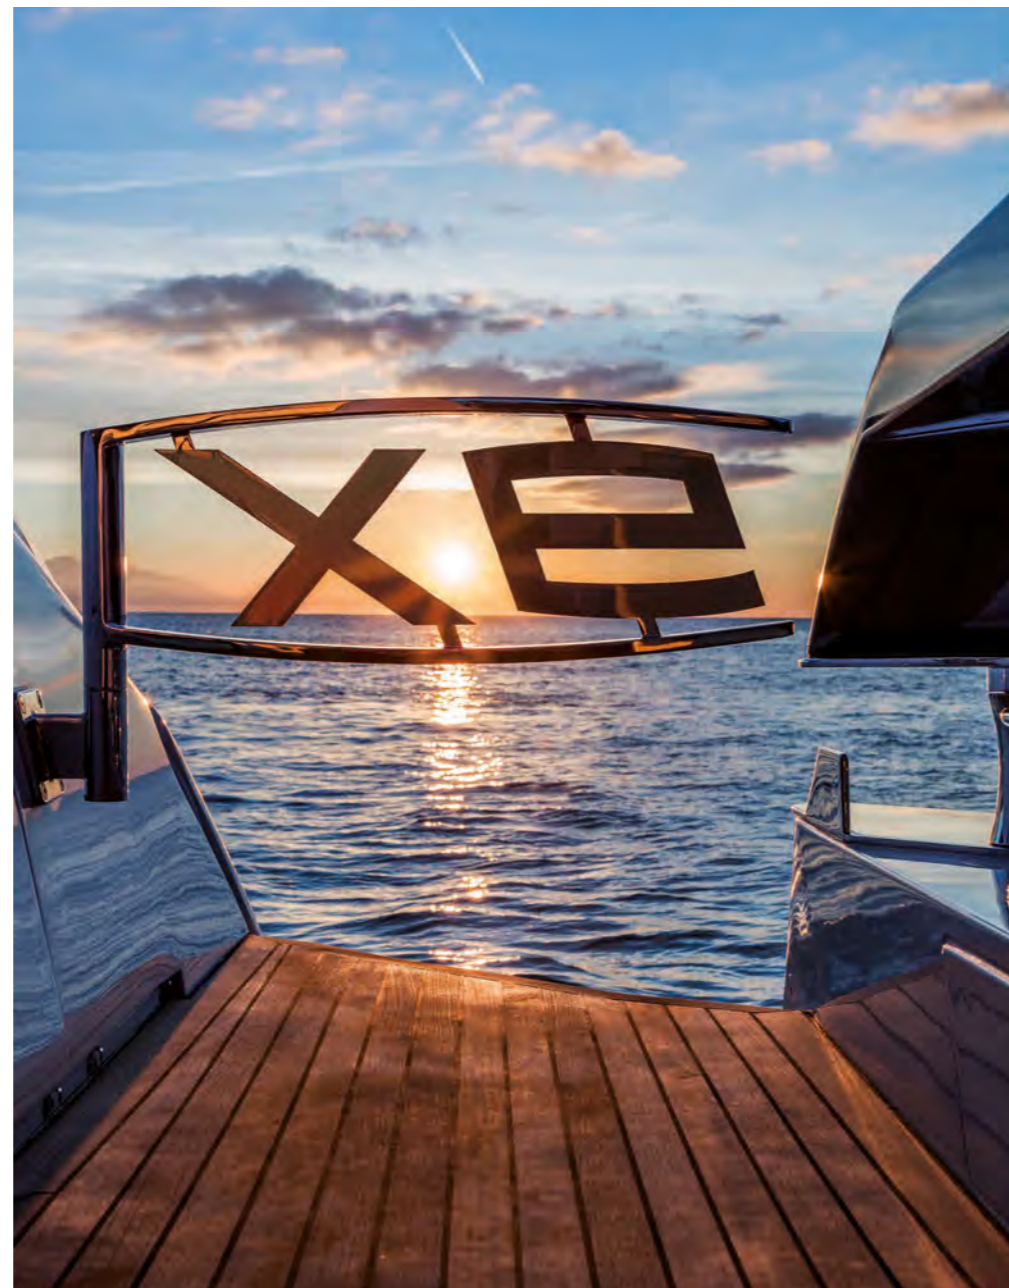

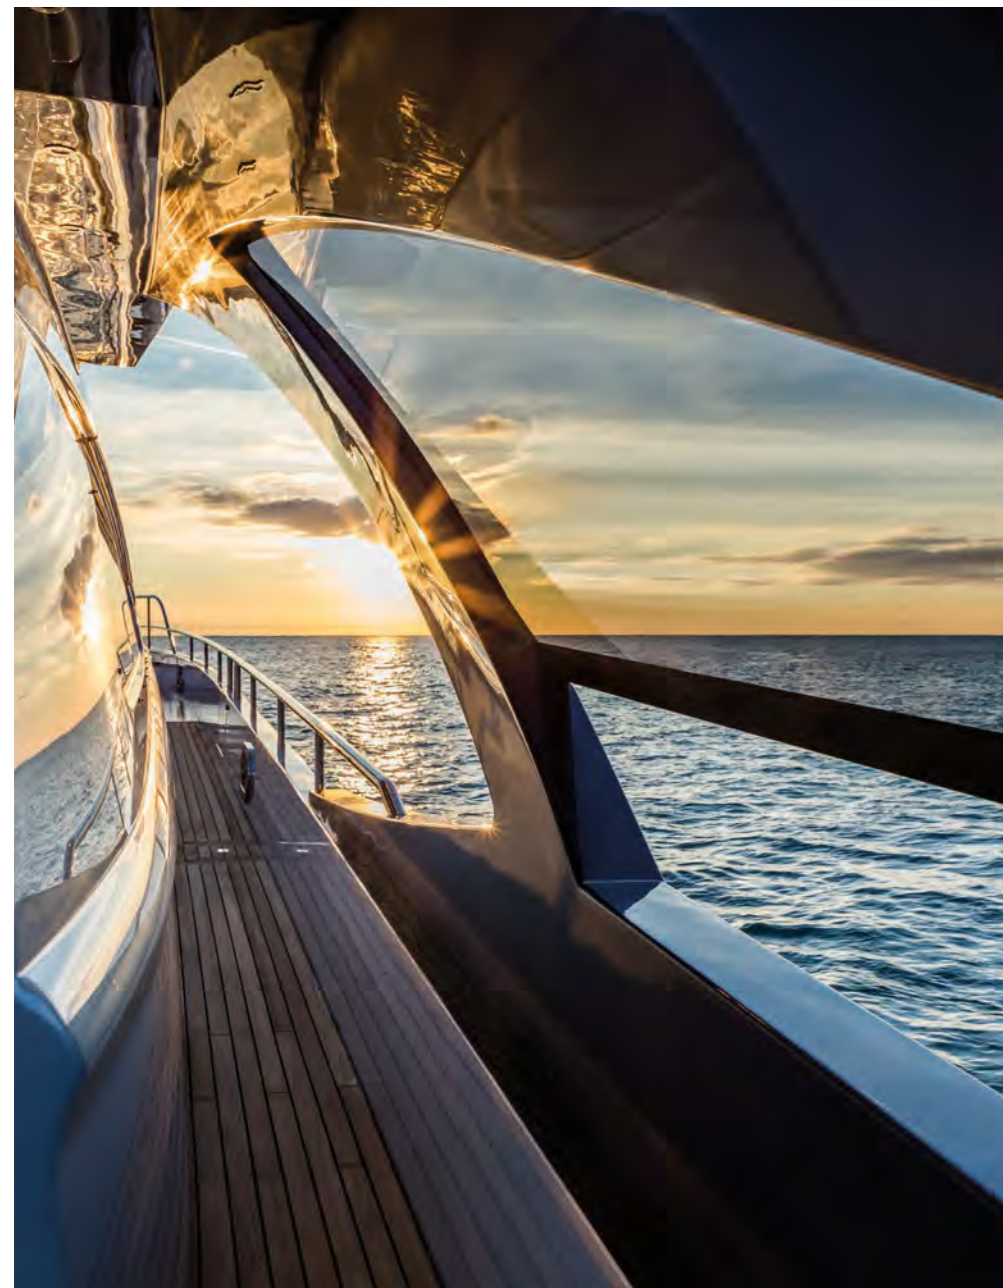

Совершенно авангардное творение в мире судостроения, эта яхта - идеальное сочетание чуда, изумления и головокружительного концентрата роскоши и технологии. Футуристическая по материалам и системе управления, яхта Pershing 9X - это революционное макси-купе, сочетающее в себе «дрожь волнения» от классического Pershing непревзойденность "Поколения X" при навигации, какой вы еще не знали.

Pershing 9X è realizzato in materiali compositi, ottenuti grazie a un ampio utilizzo del carbonio abbinato a resina vinilestere per lo scafo ed epossidica per coperta e sovrastruttura. Le sue forme da sportiva purosangue sono esaltate dalle grandi ali laterali e dal profilo aerodinamico del sundeck. Le 4 vetrate a scafo con oblò integrati a murata - oltre 15 mq totali di superfici in cristallo - regalano una luminosità naturale interna impareggiabile, mentre raffinate scelte stilistiche rendono le zone esterne eccezionali per estetica e funzionalità.

Le Pershing 9X est réalisé en matériaux composites, obtenus grâce à l'utilisation importante de carbone associé à de la résine vinylester pour la coque et de la résine epoxy pour le pont et les superstructures. Ses formes de sportif pur-sang sont sublimes par les grands montants latéraux et le profil aérodynamique du bain de soleil. Les 4 fenêtres avec hublots intégrés situées de chaque côté de la coque, qui représentent plus de 15 m² de surface vitrée, offrent une luminosité naturelle inégalable aux espaces intérieurs, tandis que les choix stylistiques raffinés rendent les zones extérieures exceptionnelles de par leur esthétique et leur fonctionnalité.

The Pershing 9X is made of composite materials, issued from extensive use of carbon in conjunction with vinyl ester resin for the hull and epoxy resin for the deck and superstructure. Its sporty, thoroughbred lines are exalted by the large side wings and the aerodynamic profile of the sun deck. The 4 glazed windows in the hull with portholes integrated into the bulwarks — providing a total glass surface of over 15 m² — offer unparalleled levels of natural light inside while refined style choices make the exterior zones exceptional, both aesthetically and functionally.

Для изготовления Pershing 9X применялись композитные материалы, в частности, карбон в сочетании с винилэфирной смолой для корпуса и эпоксидная смола для палубы и надстройки. Чистопородные спортивные формы этой яхты подчеркнуты большими боковыми крыльями и аэродинамичным профилем сандека. 4 больших окна по обеим сторонам корпуса яхты с встроенными иллюминаторами - более 15 кв.м общей стеклянной поверхности - обеспечивают отменное естественное освещение внутри яхты, а благодаря изысканным стилистическим решениям наружные зоны впечатляют своей эстетикой и функциональностью.
